- 5.** You'll learn more in the three days of PRINT UV than you would if you spent weeks researching UV and LED UV printing techniques online - nothing replaces the value of personal experiences shared by real UV printers who know this topic inside and out.
- 4.** When it comes to the latest-and-greatest technologies and consumables for UV and LED UV printing, you'll see them first at PRINT UV - know what the best products on the market are, and how to intelligently incorporate them into your business for success.
- 3.** While you're busy learning about ultraviolet printing processes, expect to be treated to seriously good food and drink - from the evening receptions to the daily meals and coffee service, the Encore by Wynn knows how to spoil PRINT UV attendees.
- 2.** For the price you'll get much more out of PRINT UV than you would a typical trade show - instead of wandering aisles speaking with suppliers, you will be joining a select group of the world's most elite printers and top suppliers for an educational and engaging confab.
- 1.** The friendships and enduring relationships you'll make at PRINT UV can literally pay dividends for years to come. The ability to call an industry friend when you encounter a problem is priceless, and there is no other forum like PRINT UV to foster these irreplaceable connections.
